Youssef Battikh

Software Engineering and Information Systems Student

ysf.battikh@gmail.com | *https://www.linkedin.com/in/ysf-battikh/*
Ksar Hellal, Monastir, 5070, Tunisia | *99729150*

A final-year Software Engineering student with a strong focus on Full-Stack Development and a growing passion for Artificial Intelligence. As a hobbyist Graphic Designer and Photo Manipulator, I bring a strong eye for detail and aesthetics to my projects.

Education

Faculty of Science Monastir

Sep 2023 - Jun 2026

Bachelor's degree Software Engineering and Information Systems

Projects

ObsidianMuscle

Mar 2025 - May 2025

Designed and developed "ObsidianMuscle," a responsive web platform dedicated to the creation and exchange of fitness regimens. The application serves as a centralized repository for users to design and publish workout routines.

University Management System

Nov 2025 - Jan 2026

A multi-technology Service-Oriented Architecture (SOA) project demonstrating microservices design patterns, API Gateway implementation, and inter-service communication.
