93355246
Monastir, Tunisia

AI Developer and Computer Science student specialized in Artificial Intelligence and Machine Learning. Strong experience in building predictive models, deep learning systems, and real-time computer vision applications. Skilled in Python, CNNs, Transformers, OpenCV, and deployment using modern backend and mobile technologies.

Projects

AI Developer Dec 2025
Real-Time Emotion Detection System

- Designed and trained a Convolutional Neural Network from scratch to perform facial emotion recognition.
- Implemented real-time inference using OpenCV with webcam integration. Achieved high accuracy across seven emotion classes.

Machine Learning Developer Nov 2025

- Developed a medical prediction system using Support Vector Machines (SVM). Handled full ML pipeline including data preprocessing, model training, performance evaluation, and UI deployment.

Mall Customer Segmentation

- Implemented K-Means clustering to segment customers based on income, spending score, age, and gender. Produced actionable insights for business intelligence and marketing strategies.

AI & Full Stack Developer
Monbil Smart Recommendation System

- Developed a **cross-platform mobile application** using **Flutter**, providing personalized event recommendations based on user interests.

Core Skills

Machine Learning: Supervised & Unsupervised Learning, SVM, KNN, Decision Trees, Model Evaluation
Deep Learning: CNNs, Transformers, NLP, Image Recognition, Computer Vision
Programming & AI Tools: Python, NumPy, Pandas, Scikit-Learn, TensorFlow, Keras, PyTorch, OpenCV, Streamlit
Backend & Deployment: FastAPI, Node.js, Express, REST APIs
Mobile Integration: Flutter, API Integration, JWT Authentication
Tools: Git, GitHub, VS Code, Virtual Environments

Education

Licence in Computer Science : **Institut supérieur d'informatique et gestion** 2023 - 2024
Licence in Computer Science : **Faculté des Sciences de Monastir** 2024 - 2026

Languages

Arabic (Native), English (Professional), French (Professional)
Interest : Artificial Intelligence Research, Football, Gaming, Drumming, Camping
